

# LAKSHAN MARTIN

TEST ANALYST | SCRUM MASTER  
SOFTWARE ENGINEERING STUDENT

## PERSONAL PROFILE

I started my professional career in Accounting, however, came to realise that many of my strengths were under-utilised.

Since transitioning to Software Engineering, I consider myself privileged to be part of an industry that is dynamic and constantly evolving to meet the demands of the modern world.

## EDUCATION

Curtin University  
Bachelor of Science  
(Computing)  
Expected Graduation Mid-2023

Curtin University  
Bachelor of Commerce  
(Accounting)

High Academic Achievement  
(Semester 1, 2020)

## PERSONAL INTERESTS

---

- Building up skills that are not formally taught through university, such as Computer Vision, Web Development and Penetration Testing.
- Participating and reviewing write-ups on Cyber Security related "Capture the Flag" games.
- Designing and building personal projects as solutions to real-world and personal problems.

## PERSONAL PROJECTS

---

### **Website Portfolio** | Web Development

I created this website as a way to learn JavaScript and the React Library. This project provided me with a maintainable platform to host and showcase the beginnings of my career as a Software Engineer.

### **Grocery Shopping App** | Android Development

This app was created to provide a convenient solution for comparing prices of grocery items from Woolworths and Coles supermarkets. It also allows compilation of shopping lists that can be stored in a database and shared through email or SMS.
